## Forward

The crane truck lifted the new flag pole, and workmen jockeyed the base into position. Then the long shaft rose until perpendicular to the ground, and it was secured into its prepared place. Our new flag was soon hoisted to the top to catch the brisk breeze. What an inspiration to see!

That this volume may inspire pleasant memories of another year at Fletcher Academy is the wish of your 1981 WHISPERING HILLS Staff.

### Our School Song

Down in the southern mountains, where the French Broad flows, in the hills of North Ca--ro--lina, Where the Lau-----rel grows, Ther's a school where lads and lass--ies come from far and near; Ther's a school of closest friendship; that we all hold dear. School of the mountains, School of standards high, I-----deals and courage Faith and lo--yal--ty. School of the moun--tains School of standards high, FLETCHER! our School!

## Dedication

DEDICATION

One of the assignments that occurs each year is the dedication of the current annual. Names are submitted for the contemplation of your **Whispering Hills** staff. Your staff endeavors to select a person who is able to relate to the majority of the students as well as an individual who is well known by them. After due deliberation, your staff decided that this year's honor should go to one who is well known, one who is respected and loved, one who knows relevant subject matter, as well as he knows young people. Therefore it is with great honor and appreciation that we dedicate the 1981 **Whispering Hills** to you, **PROFESSOR LEWIS E. NESTELL!**

## PRINCIPAL'S MESSAGE

### 1980 - 1981

Fletcher Academy is unique in its facilities, staff, and educational program. You will have many pleasant memories stemming from your experience here at Fletcher. The experiences which you have gained here are in many respects representative of the future; for these events and experiences are typical of situations of life in general. The way you have met with and related yourselves to these experiences are indicative of the way you will react to life. The choices you have made among the various options available to you are history and cannot be changed. Fortunately, this is an educational institution and you can still learn from your decisions. Good results have reinforced wise decisions; and poor results have negated the repetition of unwise decisions.

It has been a privilege for the staff and me to work with each one of you. It is hoped that we have learned together, and grown together in our quest to become more like the Master. Amid the daily routine of our busy schedules and the hustle of our activities, the "still, small voice" has endeavored to impress us with the direction each should take in his life. May we learn to be more sensitive and listen to His voice. May we aspire to follow His leading and ascend to greater heights of achievement. May we be true to the principles set forth in these chambers of learning, and join forces in attaining those objectives set forth at the founding of this school.

Sincerely,

Craig S. Willis

# CHAPLAIN'S MESSAGE

**Ken Rogers**

## Chaplain's Message

Barbara Wilson was driving not far from Ventura, California, one day when she accidentally put her foot on the accelerator instead of the brake. The car crashed through a guardrail and rolled 150 feet down a cliff. Fearing the car was going to catch fire, Mrs. Wilson crawled through a shattered rear window and rolled another 350 feet down the cliff herself. Miraculously she survived her accident and subsequent fall, but she was unable to move because of leg injuries. So she lay at the bottom of the cliff without food and water for two days and two nights.

At this time a man came walking by with his dog. Mrs. Wilson called out for help, and the man stopped and called down to ask what was wrong. When she told him that she had been hurt in a car accident, he told her he didn't want to become involved. "Besides," he said as he moved on, "any dame who is fool enough to drive on Highway 33 alone deserves all she gets." With that he was gone.

Four days after her ordeal began, Mrs. Wilson's cries for help were heard by two teenage boys who happened along. She was rescued and treated for dehydration and cuts on her leg in the Ventura Hospital, and went on to make a successful recovery.

How have you responded this school year to the "cries for help" that have come your direction? Have you stopped to offer help and encouragement, and to be a friend? Or have you chosen the easy out by not getting involved?

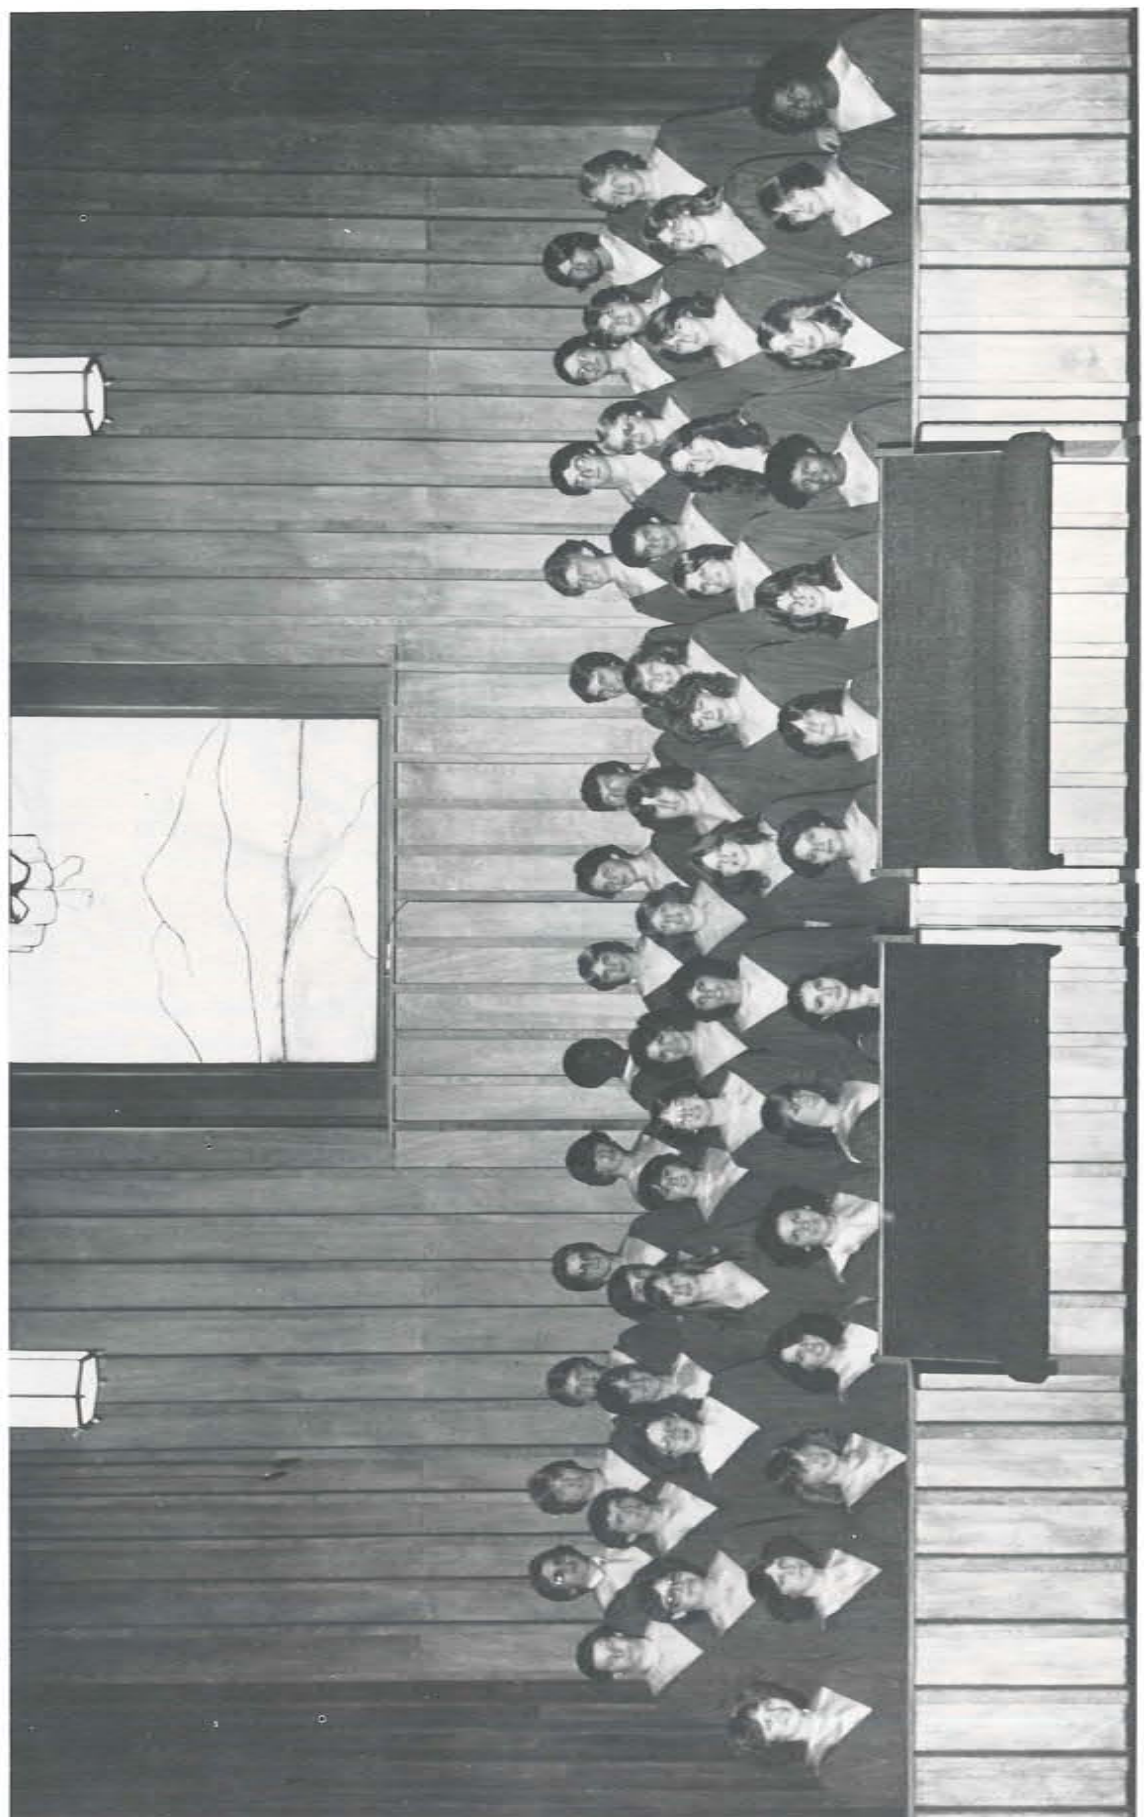

It is our prayer that your education here has been such that you will respond in a mighty way to the many challenges and "cries for help" that you will face in day to day living.

Stay involved!

Ken Rogers

### GOD WANTS YOU TO BE A WINNER

By  
Joseph J. Battistone

"I press on toward the goal to win the prize for which God has called me . . .  
Phillippians 3:20 (NIV)

God doesn't make losers, and He doesn't call people out of darkness and away from sin to become losers. God makes winners out of losers, and above everything else, He wants you to be a winner. The apostle Paul was convinced of this truth when he wrote of himself, "I can do everything through him who gives me strength" (Phillippians 4:13, NIV). The secret of being a winner is revealed in this text. It is trusting in Christ, believing that in Christ you have access to all the resources — knowledge, skills, equipment, etc. — that you need in order to become a winner. Being a winner is not simply the result of thinking positively about yourself or about others or about the world as a whole, since for many that would be an exercise in self-deception. But God's winners are not negative thinkers either. They are men and women of faith, hope, and love; men and women of courage and conviction who are informed about the forces of evil and destruction at work in the world, but are not frightened by them. Their courage and conviction arise from their belief in God. Through faith in Christ they move from one victory to another in God's great cause, and become champions of justice and freedom. The world today stands in great need of such men and women, for without them it would be swallowed up in despair and ruin. That is why God is calling you to serve Him, to become the salt of the earth, the light of the world. He wants you to be a winner and then to tell others about what He has enabled you to do. If you have not responded to His call, you still have time. Why not become a winner now.

We need you on the team!

## CAPTAIN GILMER SCHOOL

"To restore in man the image  
of his Maker, to bring him back  
to the perfection in which he was  
created, to promote the develop-  
ment of body, mind and soul . . ."  
Education, p.15,16

# PRINCIPAL'S MESSAGE

Dear Students,

Have you ever asked yourself, "What is Christian education?" Some may say that Christian education means going to a school where one has morning devotions, prayer, and the study of the Bible along with the other subjects taught. Others may quote from the book, **Education**, that it is "the harmonious development of the physical, the mental, and the spiritual powers." p.13. And yet others say, and rightly so, that it means the restoration of man to the image of God. These, certainly, are good definitions and are worthy goals to which each person should strive. But I challenge each student's thinking to a more practical application of this term "Christian education". When one really stops to think, one realizes that it simply means to follow Christ's example and to be like Him in our everyday life. It is then that we can truly call ourselves Christians.

I would like to share with you some thought-provoking statements about the childhood of Christ that I gleaned from the book, **Desire of Ages**. They are as follows:

"As a child Jesus manifested a peculiar loveliness of disposition. His willing hands were ever ready to serve others. He manifested a patience that nothing could disturb, and truthfulness that would never sacrifice integrity. In principle, firm as a rock, His life revealed the grace of unselfish courtesy."pp. 68,69.

"From His earliest years He was possessed of one purpose; He lived to bless others."p.70.

"He was . . . a loving obedient son."p.72.

"He was not willing to be defective, even in the handling of tools. He was perfect as a workman as He was perfect in character."p.72.

"Jesus carried into His labor cheerfulness and tact."p.73.

These are just a few of the beautiful statements about Jesus' childhood. It would do all of us well to study more of His life and His example and to put it into practice in our total life. Then can we truly say we are receiving a Christian education.

# These Made the Year Go Better

Education is a lifelong endeavor. Now that thought doesn't sound very encouraging to a number of students who can count the days or the years when they will be out of school. However the human being becomes a very dull individual if an effort isn't made to continually learn new ideas and develop new awarenesses.

One of the goals that should come out of your involvement here at Fletcher Academy is a curiosity to learn, a willingness to be awed by the unknown. You will find a large number of items that have come out of your high school curriculum that you can continue to enjoy, continue to grow with over the entire years of your life. I hope that you have looked for some of these.

Certainly your science classes can open vistas that go and go and go. History is an ever-changing area with both the intrigues of royalty and the heartthrob of democracy. English, the appreciation of good literature, the enjoyment of reading, the use of ones language, is a fascination that one should never grow tired of.

While we can't cover all of these subjects, there is one more that needs to be mentioned and that is religion. Hopefully, from your classes, you will have learned that seeking God's wisdom is indeed the foundation for all other knowledge and information.

If your education here has started you on the path of continually growing, it's been a success. I would hope that each of you got A's in the curiosity that will lead you throughout the rest of your life.

## Don't Turn your thermostat down.

Turn it off.

It's a good idea to conserve oil. It's a better idea not to use any. And, with the Buck Stove, that's just about what you can do. With its unique thermostat blower system, the Buck Stove can heat your entire home-up to 3,000 square feet-and

according to Buck Stove owners, save you up to 80% on your heating bills.

Want more information? Call someone who owns a Buck Stove or call the Buck Stove energy center.
